INTRODUCTION, ... xv

TABULAR PRESENTATIONS.

NATIVE BORN AND FOREIGN BORN; COLOR AND RACE; CONJUGAL CONDITION: BY SEX AND AGE PERIODS, ... 1-221
Towns in the county of Barnstable, ... 3-11
Cities and towns in the county of Berkshire, ... 11-29
Cities and towns in the county of Bristol, ... 29-42
Towns in the county of Dukes County, ... 42-46
Cities and towns in the county of Essex, ... 47-69
Towns in the county of Franklin, ... 69-82
Cities and towns in the county of Hampden, ... 82-95
Cities and towns in the county of Hampshire, ... 95-106
Cities and towns in the county of Middlesex, ... 107-141
Town of Nantucket, county of Nantucket, ... 141, 142
Cities and towns in the county of Norfolk, ... 142-160
Cities and towns in the county of Plymouth, ... 160-177
Cities and towns in the county of Suffolk, ... 177-181
Cities and towns in the county of Worcester, ... 181-215
Recapitulation. The State, ... 216-221

TABULAR ANALYSIS, ... 222-226
Composition of the male population of the State as regards nativity, race, and conjugal condition, correlated with age periods, ... 222
Composition of the female population of the State as regards nativity, race, and conjugal condition, correlated with age periods, ... 222
Comparisons regarding the white and colored races, ... 223
Conjugal condition of native born and foreign born males and females: by numbers and percentages, ... 223, 224
Conjugal condition of native born and foreign born males and females, 20 years of age and over: by numbers and percentages, ... 224, 225
Excess or deficiency of native born and foreign born females: by conjugal condition, . 225

AGES, ... 227-511
Explanation of presentation, ... 229
Under 1 to 80 years and over, ... 230-337
Under 1 year, in detail by months, ... 338-353
80 years and over in detail, ... 354-383
By five-year periods, ... 384-427
By ten-year periods, ... 428-449
By selected age periods, ... 450-511

AGES: UNDER 1 TO 80 YEARS AND OVER (BY SEX), ... 230-337
Towns in the county of Barnstable, ... 230-232
Cities and towns in the county of Berkshire, ... 233-239
Cities and towns in the county of Bristol, ... 239-243
Towns in the county of Dukes County, ... 243, 244
Cities and towns in the county of Essex, ... 244-251
Towns in the county of Franklin, ... 251-256
Cities and towns in the county of Hampden, ... 256-260
Cities and towns in the county of Hampshire, ... 261-265
Cities and towns in the county of Middlesex, ... 265-276
Town of Nantucket, county of Nantucket, ... 276

AGES: UNDER 1 TO 80 YEARS AND OVER (BY SEX) — Con. Page
Cities and towns in the county of Norfolk, ... 276-281
Cities and towns in the county of Plymouth, ... 282-286
Cities and towns in the county of Suffolk, ... 287
Cities and towns in the county of Worcester, ... 288-299
Recapitulation: By Counties, and For the State, ... 300-303
Recapitulation: Percentages. For the State, ... 304
Ages: Under 1 to 80 years and over. For cities: by sex, and native and foreign born, ... 305-336
City of North Adams, county of Berkshire, ... 305
City of Pittsfield, county of Berkshire, ... 306
City of Fall River, county of Bristol, ... 307
City of New Bedford, county of Bristol, ... 308
City of Taunton, county of Bristol, ... 309
City of Beverly, county of Essex, ... 310
City of Gloucester, county of Essex, ... 311
City of Haverhill, county of Essex, ... 312
City of Lawrence, county of Essex, ... 313
City of Lynn, county of Essex, ... 314
City of Newburyport, county of Essex, ... 315
City of Salem, county of Essex, ... 316
City of Chicopee, county of Hampden, ... 317
City of Holyoke, county of Hampden, ... 318
City of Springfield, county of Hampden, ... 319
City of Northampton, county of Hampshire, ... 320
City of Cambridge, county of Middlesex, ... 321
City of Everett, county of Middlesex, ... 322
City of Lowell, county of Middlesex, ... 323
City of Malden, county of Middlesex, ... 324
City of Marlborough, county of Middlesex, ... 325
City of Medford, county of Middlesex, ... 326
City of Newton, county of Middlesex, ... 327
City of Somerville, county of Middlesex, ... 328
City of Waltham, county of Middlesex, ... 329
City of Woburn, county of Middlesex, ... 330
City of Quincy, county of Norfolk, ... 331
City of Brockton, county of Plymouth, ... 332
City of Boston, county of Suffolk, ... 333
City of Chelsea, county of Suffolk, ... 334
City of Fitchburg, county of Worcester, ... 335
City of Worcester, county of Worcester, ... 336
Ages: Under 1 to 80 years and over. For the State: by sex, and native and foreign born, ... 337

AGES: UNDER 1 YEAR, IN DETAIL BY MONTHS (BY SEX), ... 338-353
Towns in the county of Barnstable, ... 338, 339
Cities and towns in the county of Berkshire, ... 338, 339
Cities and towns in the county of Bristol, ... 340, 341
Towns in the county of Dukes County, ... 340, 341
Cities and towns in the county of Essex, ... 340-343
Towns in the county of Franklin, ... 342, 343
Cities and towns in the county of Hampden, ... 342-345
Cities and towns in the county of Hampshire, ... 344, 345
Cities and towns in the county of Middlesex, ... 344-347
Town of Nantucket, county of Nantucket, ... 346, 347
Cities and towns in the county of Norfolk, ... 346-349
Cities and towns in the county of Plymouth, ... 348, 349
Cities and towns in the county of Suffolk, ... 348, 349
Cities and towns in the county of Worcester, ... 348-351
Recapitulation. The State and Counties, ... 352, 353

AGES: 80 YEARS AND OVER IN DETAIL (BY SEX), ... 354-383
Towns in the county of Barnstable, ... 354, 355
Cities and towns in the county of Berkshire, ... 355, 356

AGES: 80 YEARS AND OVER IN DETAIL (BY SEX) — Con. Page
Cities and towns in the county of Bristol, ... 356–358
Towns in the county of Dukes County, ... 358
Cities and towns in the county of Essex, ... 358–361
Towns in the county of Franklin, ... 361, 362
Cities and towns in the county of Hampden, ... 362–364
Cities and towns in the county of Hampshire, ... 364, 365
Cities and towns in the county of Middlesex, ... 365–369
Town of Nantucket, county of Nantucket, ... 369
Cities and towns in the county of Norfolk, ... 369–371
Cities and towns in the county of Plymouth, ... 371–373
Cities and towns in the county of Suffolk, ... 373
Cities and towns in the county of Worcester, ... 373–377
Recapitulation: By Counties, and For the State, ... 378, 379
Recapitulation. Native and Foreign Born: By Counties, and For the State, . . . 380–383

AGES: BY FIVE-YEAR PERIODS (BY SEX), ... 384–427
Towns in the county of Barnstable, ... 384, 385
Cities and towns in the county of Berkshire, ... 384–389
Cities and towns in the county of Bristol, ... 388–391
Towns in the county of Dukes County, ... 390–393
Cities and towns in the county of Essex, ... 392–397
Towns in the county of Franklin, ... 396–399
Cities and towns in the county of Hampden, ... 398–401
Cities and towns in the county of Hampshire, ... 400–403
Cities and towns in the county of Middlesex, ... 404–409
Town of Nantucket, county of Nantucket, ... 408, 409
Cities and towns in the county of Norfolk, ... 410–413
Cities and towns in the county of Plymouth, ... 412–415
Cities and towns in the county of Suffolk, ... 414–417
Cities and towns in the county of Worcester, ... 416–423
Recapitulation. For the State and Counties: by native and foreign born, sex, and age periods, ... 422–427

AGES: BY TEN-YEAR PERIODS (BY SEX), ... 428–449
Towns in the county of Barnstable, ... 428
Cities and towns in the county of Berkshire, ... 429, 430
Cities and towns in the county of Bristol, ... 430, 431
Towns in the county of Dukes County, ... 431, 432
Cities and towns in the county of Essex, ... 432–434
Towns in the county of Franklin, ... 434, 435
Cities and towns in the county of Hampden, ... 435, 436
Cities and towns in the county of Hampshire, ... 436–438
Cities and towns in the county of Middlesex, ... 438–440
Town of Nantucket, county of Nantucket, ... 441
Cities and towns in the county of Norfolk, ... 441, 442
Cities and towns in the county of Plymouth, ... 442, 443
Cities and towns in the county of Suffolk, ... 444
Cities and towns in the county of Worcester, ... 444–447
Recapitulation. For the State and Counties: by native and foreign born, sex, and age periods, ... 447–449

AGES: BY SELECTED AGE PERIODS (BY NATIVE AND FOREIGN BORN, AND SEX), . . . 450–511
Towns in the county of Barnstable, ... 450–452
Cities and towns in the county of Berkshire, ... 452–457
Cities and towns in the county of Bristol, ... 458–461
Towns in the county of Dukes County, ... 461, 462
Cities and towns in the county of Essex, ... 462–468
Towns in the county of Franklin, ... 468–472
Cities and towns in the county of Hampden, ... 472–476
Cities and towns in the county of Hampshire, ... 476–480
Cities and towns in the county of Middlesex, ... 480–489
Town of Nantucket, county of Nantucket, ... 489
Cities and towns in the county of Norfolk, ... 489–494

AGES: BY SELECTED AGE PERIODS (BY NATIVE AND FOREIGN BORN, AND SEX) — Con. Page
Cities and towns in the county of Plymouth, ... 494–498
Cities and towns in the county of Suffolk, ... 498, 499
Cities and towns in the county of Worcester, ... 499–509
Recapitulation. For the State and Counties, ... 509–511

TABULAR ANALYSIS, ... 512–518
Value of tables of ages in comparative statistics of health and mortality, ... 512
Concentration on quinquennial periods, ... 512
Age at nearest birthday, ... 512
Consideration of particular years and periods, ... 512–515
Comparisons by periods of years for 1885 and 1895, ... 515
Excess or deficiency of females, by age periods, ... 515, 516
Comparisons of productive and dependent ages for 1885 and 1895, ... 516, 517

RELATION TO HEAD OF FAMILY: BY SEX, ... 519–572
Explanation of presentation, ... 521
Towns in the county of Barnstable, ... 522, 523
Cities and towns in the county of Berkshire, ... 523–525
Cities and towns in the county of Bristol, ... 526, 527
Towns in the county of Dukes County, ... 527
Cities and towns in the county of Essex, ... 528–530
Towns in the county of Franklin, ... 531, 532
Cities and towns in the county of Hampden, ... 533, 534
Cities and towns in the county of Hampshire, ... 535, 536
Cities and towns in the county of Middlesex, ... 537–541
Town of Nantucket, county of Nantucket, ... 541
Cities and towns in the county of Norfolk, ... 541–543
Cities and towns in the county of Plymouth, ... 544–546
Cities and towns in the county of Suffolk, ... 546
Cities and towns in the county of Worcester, ... 546–551
Recapitulation. For the State and Counties, ... 552, 553
For Cities: by native and foreign born, ... 554–569
North Adams, ... 554
Pittsfield, ... 554
Fall River, ... 555
New Bedford, ... 555
Taunton, ... 556
Beverly, ... 556
Gloucester, ... 557
Haverhill, ... 557
Lawrence, ... 558
Lynn, ... 558
Newburyport, ... 559
Salem, ... 559
Chicopee, ... 560
Holyoke, ... 560
Springfield, ... 561
Northampton, ... 561
Cambridge, ... 562
Everett, ... 562
Lowell, ... 563
Malden, ... 563
Marlborough, ... 564
Medford, ... 564
Newton, ... 565
Somerville, ... 565
Waltham, ... 566
Woburn, ... 566
Quincy, ... 567
Brockton, ... 567
Boston, ... 568
Chelsea, ... 568
Fitchburg, ... 569
Worcester, ... 569
Recapitulation: by age periods. For the State, ... 570–572

THE

DECENNIAL CENSUS OF THE COMMONWEALTH.

1895.

VOLUME II.

INTRODUCTION.

The present volume, the second in the series presenting the results of the Decennial Census of 1895, contains social statistics of the population, as disclosed by the enumeration which began May 1, comprising the following sections of the work, each of which has been given to the public in preliminary pamphlet form as soon as completed:

Part 1.
Native Born and Foreign Born; Color and Race; Conjugal Condition: By Sex and Age Periods.

Part 2.
Relation to Head of Family.
Place of Birth.

Part 3.
Length of Residence.

Each tabular presentation is accompanied with full analytical text, to which the attention of the reader is especially called.

HORACE G. WADLIN,
Chief

BUREAU OF STATISTICS OF LABOR,
20 BEACON STREET, BOSTON,
December, 1897.

Native Born and Foreign Born; Color and Race; Conjugal Condition: By Sex and Age Periods.

NATIVITY, RACE, AND CONJUGAL CONDITION: BY SEX AND AGE PERIODS.

[The abbreviation Unk is used for Unknown.]

Tabular Analysis.

Pages

Native Born and Foreign Born; Color and Race; Conjugal Condition: By Sex and Age Periods, ... 1–221

Pages 791 to 852, Volume I., of the Decennial Census, contained tables showing separately the native and foreign born population, the distribution of the population by color and race, and the conjugal condition of the people. The presentation given on pages 1 to 221 of this volume correlates the information as to nativity, race, and conjugal condition, by age periods, so as to show the composition of the population as regards conjugal condition, for each sex, under each race designation, in detail, by age periods. The recapitulation for the State is contained upon pages 216 to 221. It shows that the 1,214,701 males in the State comprise 836,525 native born white; 11,482 native born colored; 259 native born Indian; two native born Japanese; and 44 native born Chinese. On the other hand, there are 363,395 foreign born white males; 1,331 foreign born colored; 20 foreign born Indian; 24 foreign born Japanese; and 1,619 foreign born Chinese. The native born white males comprise 543,983 who are single, 265,663 married, 24,682 widowed,* 1,372 divorced, and 825 for whom the facts as to conjugal condition were unknown. The native born colored males include 6,684 single, 4,329 married, 443 widowed, 19 divorced, and seven conjugal condition unknown. The native born Indian males comprise 179 single, 71 married, seven widowed, and two divorced. The two native born Japanese males were single, and the 44 native born Chinese were also single. Of the foreign born white males 143,529 are single, 200,117 married, 19,021 widowed, 276 divorced, while the conjugal condition of 452 was unknown. The foreign born colored males comprise 575 single, 690 married, 61 widowed, two divorced, and three whose conjugal condition was unknown. The foreign born Indian males include 12 single, seven married, and one divorced; the foreign born Japanese males, 20 single and four married; and the foreign born Chinese males, 1,022 single, 556 married, 15 widowed, and 26 conjugal condition unknown.

The females of the population, who number in the aggregate 1,285,482, include 874,285 native born white, 12,420 native born colored, 233 native born Indian, one native born Japanese, and two native born Chinese. There are also 397,213 foreign born white females, 1,307 foreign born colored, seven foreign born Indian, seven foreign born Japanese, and seven foreign born Chinese. Of the females, the native born white include 537,550 single, 266,611 married, 67,662 widowed, 2,142 divorced, and 320 conjugal condition unknown. The native born colored females comprise 6,620 single, 4,274 married, 1,485 widowed, 34 divorced, and seven conjugal condition unknown. The native born Indian females include 116 single, 81 married, and 36 widowed. The one native born Japanese female was unmarried, and this is also the case with the two native born Chinese females. Of the foreign born white females, 144,239 were single, 200,183 married, 52,026 widowed, 597 divorced, and 168 conjugal condition unknown. The foreign born colored females comprise 443 single, 649 married, 211 widowed, and four who were divorced. The foreign born Indian females include three single, three married, and one widowed; the foreign born Japanese females, five single, one married, and one divorced; and the foreign born Chinese females, one single and six married.

* This term includes, as previously explained on page 865, Volume I., persons of either sex deprived by death of husband or wife, and not re-married.

The white and colored races constitute the largest sections of the population, and the figures we have cited indicate that of the native born white males, about 65 in every 100 (65.02 per cent) were single, the others being married, widowed, divorced, or unknown; while of the foreign born white males, about 40 in every 100 (39.50 per cent) were single. Of the single native born white males, about 71 in every 100 (70.55 per cent) were under 20 years of age, while of the single foreign born white males, about 38 in every 100 (37.77 per cent) were under 20 years of age. The single native born colored males number about 58 in every 100 (58.21 per cent), and the single foreign born colored males about 43 in every 100 (43.20 per cent). The single native born colored males include about 59 in every 100 who were under 20 years of age, or 58.56 per cent of the whole number, while the single foreign born colored males include about 28 in every 100 who were under 20 years of age, or 28.35 per cent of the whole number. Similar comparisons for the females who were native born white and native born colored show that the single native born white females number about 61 in every 100 (61.48 per cent), while the single foreign born white females number about 36 in every 100 (36.31 per cent). The native born colored females who were single number about 53 in every 100 (53.30 per cent), while the foreign born colored females who were single number about 34 in every 100 (33.89 per cent) The single native born white females under 20 years of age number about 70 in every 100, or 70.44 per cent of the total single native born white females, while the foreign born white females who were single and under 20 years of age number about 40 in every 100, or 39.80 per cent of the total single foreign born white females. On the other hand, the native born colored females who were single and under 20 years of age number about 66 in every 100, or 65.53 per cent of the total single native born colored females, and the single foreign born colored females under 20 years of age number about 39 in every 100, or 39.28 per cent of the total single foreign born colored females.

We introduce two brief analysis tables, the first showing number and the second percentages, for each conjugal condition as regards native born and foreign born males and females, and the total number of native and foreign born persons.

Conjugal Condition.	Males		Females		Both Sexes	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	848,312	366,389	886,941	398,541	1,735,253	764,930
Single,	550,892	145,158	544,289	144,691	1,095,181	289,849
Married,	270,063	201,374	270,966	200,842	541,029	402,216
Widowed,	25,132	19,097	69,183	52,238	94,315	71,335
Divorced,	1,393	279	2,176	602	3,569	881
Unknown,	832	481	327	168	1,159	649

Conjugal Condition.	Percentages					
	Males		Females		Both Sexes	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	100.00	100.00	100.00	100.00	100.00	100.00
Single,	64.94	39.62	61.37	36.31	63.11	37.89
Married,	31.84	54.96	30.55	50.39	31.18	52.58
Widowed,	2.96	5.21	7.80	13.11	5.43	9.33
Divorced,	0.16	0.08	0.24	0.15	0.21	0.12
Unknown,	0.10	0.13	0.04	0.04	0.07	0.08

These tables show that of the whole number of native born males, 550,892, or about 65 in every 100 of the total native born male population of the State (64.94 per cent), are single, while 270,063, or about 32 in every 100 of the total native male population (31.84 per cent), are married. On the other hand, of the whole number of foreign born males, 145,158, or about 40 in every 100 of the total foreign male population of the State (39.62 per cent), are single, and 201,374, or about 55 in every 100 of the total foreign male population (54.96 per cent), are married. Of the native born females, about 61 in every 100 of the total native female population of the State (61.37 per cent), are single, and about 31 in every 100 of the total native female population (30.55 per cent), are married; while of the foreign born females, about 36 in every 100 of the total foreign female population (36.31 per cent), are single, and about 50 in every 100 of the total foreign female population (50.39 per cent), are married. These figures show that a very much larger proportion of the foreign born males and females are married than of the native born males and females. This disproportion also appeared in the Census of 1885, and the explanation at that time given may be repeated. It is caused by the fact that foreign born persons are generally married, or of marriageable age, when they come to this country, and as the children of native birth, who largely outnumber the children of foreign birth, are necessarily considered in figuring the percentages of conjugal condition for native born persons, it is readily seen that the percentage of married persons of foreign birth will much exceed the percentage of native born persons who are married. Of the 4,450 divorced persons, 3,569 were of native birth, while only 881 were of foreign birth.

The next tables afford a comparison of the native and foreign born population 20 years of age and over with respect to conjugal condition, presented numerically and by percentages, and a consideration of these tables will show that when adults only are compared the disproportion in the percentages of married persons, native and foreign born, is not so great.

Conjugal Condition.	Persons 20 years of age and over					
	Males		Females		Both Sexes	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	460,024	311,789	500,633	339,190	960,657	650,979
Single,	163,036	90,743	161,197	87,107	324,233	177,850
Married,	269,641	201,198	267,793	199,099	537,434	400,297
Widowed,	25,124	19,088	69,142	52,215	94,266	71,303
Divorced,	1,393	279	2,175	601	3,568	880
Unknown,	830	481	326	168	1,156	649

Conjugal Condition.	Percentages: Persons 20 years of age and over					
	Males		Females		Both Sexes	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	100.00	100.00	100.00	100.00	100.00	100.00
Single,	35.44	29.10	32.20	25.68	33.75	27.32
Married,	58.62	64.53	53.49	58.70	55.95	61.49
Widowed,	5.46	6.12	13.81	15.39	9.81	10.95
Divorced,	0.30	0.09	0.43	0.18	0.37	0.14
Unknown,	0.18	0.16	0.07	0.05	0.12	0.10

Comparing the percentages shown in these tables we find that of the native born males 20 years of age and over, about 59 in every 100 (58.62 per cent) are married, while of the foreign born males of the same age, about 65 in every 100 (64.53 per cent) are married. Of the native born females 20 years of age and over about 53 in every 100 (53.49 per cent) are married, and of the foreign born females of the same age about 59 in every 100 (58.70 per cent) are married.

The excess or deficiency of females, by conjugal condition, for both native and foreign born, is summarized in the following table:

Conjugal Condition.	Males		Females		Excess (+), or Deficiency (−), of Females	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	848,312	366,389	886,941	398,541	+38,629	+32,152
Single,	550,892	145,158	544,289	144,691	−6,603	−467
Married,	270,063	201,374	270,966	200,842	+903	−532
Widowed,	25,132	19,097	69,183	52,238	+44,051	+33,141
Divorced,	1,393	279	2,176	602	+783	+323
Unknown,	832	481	327	168	−505	−313

Conjugal Condition.	Total Males	Total Females	Excess (+), or Deficiency (−), of Females	
			Number	Percentages
THE STATE.	1,214,701	1,285,482	+70,781	+5.83
Single,	696,050	688,980	−7,070	−1.02
Married,	471,437	471,808	+371	+0.08
Widowed,	44,229	121,421	+77,192	+174.53
Divorced,	1,672	2,778	+1,106	+66.15
Unknown,	1,313	495	−818	−62.30

Referring to the figures in the foregoing tables, we find that there were 38,629 native born females in excess of native born males, and 32,152 foreign born females in excess of foreign born males. Analyzing the classification showing conjugal condition, we find, however, that of the single males the native born exceed the single native born females. That is to say, there were 6,603 less single native born females than single native born males, and there were also 467 less single foreign born females than males. On the other hand, the native born females who were married show an excess of 903 over males of the same conjugal condition, while the foreign born married females number 532 less than the foreign born married males. The widowed females who were native born show an exeess of 44,051 over the native born males of the same conjugal condition, and the foreign born widowed females show an excess of 33,141 over the foreign born males of the same conjugal condition. The native born divorced females are 783 in excess of the native born divorced males, and the foreign born divorced females are 323 in excess. Disregarding the distinctions of native and foreign born, the single females number 7,070 less than the single males, while the married females number 371 in excess of the married males, the widowed females 77,192 in excess of males of the same conjugal condition, and the divorced females are 1,106 in excess. Balancing the deficiency of females who are single and the deficiency of females whose conjugal condition was unknown, as compared with males, against the excess of females shown among those who are married, widowed, and divorced, we obtain the aggregate number of females in excess of males in the total population, namely, 70,781, or 5.83 per cent.

AGES.

AGES.

The classification of ages, by years and periods of years, is shown in seven tables, giving the number of persons by sex and by totals, for each year and period of years, respectively, and for those less than one year old by months, in each town, city, county, and for the State.

In some of the tables the classification by native and foreign born is also supplied. The tables are self-explanatory and are designated as follows:

AGES: UNDER 1 TO 80 YEARS AND OVER. For Towns, Counties, and the State.

AGES: UNDER 1 TO 80 YEARS AND OVER. For the Cities and the State by Native and Foreign Born.

AGES: UNDER 1 YEAR, IN DETAIL BY MONTHS. For Towns, Cities, Counties, and the State.

AGES: 80 YEARS AND OVER, IN DETAIL. For Towns, Cities, Counties, and the State, with a recapitulation for Counties and the State by Native and Foreign Born.

AGES: 5 YEAR PERIODS. For Towns and Cities, with a recapitulation for Counties and the State by Native and Foreign Born.

AGES: 10 YEAR PERIODS. For Towns and Cities, with a recapitulation for Counties and the State by Native and Foreign Born.

AGES: SELECTED AGE PERIODS. For Towns, Cities, Counties, and the State by Native and Foreign Born.

AGES:

UNDER 1 TO 80 YEARS AND OVER.

AGES:

BY SELECTED AGE PERIODS.

[In the case of the age periods "Between 8 and 14," "Between 5 and 15," "Between 18 and 45," and "Between 16 and 60," the first year mentioned in each is included, but the second is not. The significance of these periods and the reason for their selection is fully explained in the analysis which follows this presentation.]

Tabular Analysis.

	Pages
Ages, ...	227-511

The ages of the population are presented in the tables pages 227 to 511. As much use is made of the tables of ages in comparative statistics relating to health and mortality, as well as to many other subjects, it has been thought proper to give them fully, with such recapitulations and classifications as seemed likely to meet the more obvious requirements. The first presentation shows the ages, by sex, with totals, for each town and city in the Commonwealth. This is followed by a recapitulation by counties and for the State, contained upon pages 300 to 303, and a recapitulation for the State, with totals and percentages, on page 304. In analyzing this presentation we refer to the last named recapitulation only. From it we see that the number of persons under one year of age was 48,933, or 1.96 per cent of the total population. At the other extremity of the scale we find 18,510 persons who were 80 years of age or over, constituting 0.74 per cent of the population. It is not necessary to particularize the numbers or percentages for each age, as these may be readily seen. We may, however, point out that the usual concentration of ages on the quinquennial periods, apparent in every Census, is graphically shown in this comparison of percentages. It should be explained that in taking the ages of the people, the nearest birthday is used, except for persons under one year of age, whose ages are presented in detail by months. It is, therefore, plain that persons entered in the table as one year of age include only those from 12 to 17 months old, inclusive. Those who are more than 18 months old are entered as two years of age, and so on up to those two and one-half years old; those two and one-half years old, and upward to those who are three and one-half years old, are entered as three years of age, and so on throughout the table. The percentage of population of age one, is, therefore, somewhat diminished in comparison with other years.

The concentration upon the quinquennial periods is not so marked below age 25 as it is above that limit. The number returned as 25 years of age is 57,641, while the number of age 24 is 54,377, and of age 26, 51,455. At the next quinquennial period, namely, age 30, we find 58,574; while the number returned as of age 29 is but 41,401, and the number of age 31, but 32,504. The number returned as of age 35 is 50,682, while the number of age 34 is but 38,738, and the number of age 36, but 36,364. This concentration upon the quinquennial periods, apparent from these illustrations, and from the number returned at other quinquennial periods as shown in the table, is not due to estimating on the part of those who made the return, so much as to the apparently natural tendency, observed in every Census, to select a round year in making reply to the Census enumerator, when the age of the person approximates this year, rather than return an intermediate year. This error is partly counteracted by classifying the ages by five-year and ten-year periods, as in subsequent presentations, thereby distributing the error over the entire number of years included in such periods. As we have said, the concentration upon the quinquennial periods is not so manifest below as above age 25. The number reported as five years of age constitutes 1.92 per cent of the population, while the numbers reported of ages four and six are, respectively, 1.95 and 1.83 per cent of the population. Again, the number reported of age 10 constitutes 1.69 per cent of the population, while the numbers reported of ages nine and 11 constitute, respectively, 1.67 and 1.57 per cent of the population. The number reported of age 15 constitutes 1.64 per cent of the population, while the numbers reported of ages 14 and 16 constitute, respectively, 1.65 and 1.74 per cent of the

population. The number reported of age 20 constitutes 2.07 per cent, while the number reported of age 19 constitutes only 1.96 per cent, showing in this instance a tendency to concentrate on age 20, although the number reported of age 21 constitutes 2.04 per cent of the population, about the same number as reported of age 20. After age 25 is passed, however, the number reported at each five-year period, when reduced to percentages, shows a marked variation from the percentages represented by the ages just preceding and following the quinquennial year.

The recapitulation to which we have thus referred is followed by a presentation, pages 305 to 337, showing, for the cities and for the State, the population in detail as to ages, from one to 80 years and over, classified by sex, and as to native and foreign born. This classification was deemed of sufficient importance to warrant its complete presentation for the cities of the Commonwealth, but, in order to condense the report as much as possible, this information is not presented for the towns. Should it be desired, however, in the case of any particular town, it can be supplied by the Census Office. The figures for the State, contained on page 337, will enable the reader to determine the distribution, as to ages, of the native born and foreign born population, by sex.

The population under one year of age is shown in detail by months, for the State and for each county, in the recapitulation on pages 352 and 353. The numbers returned of each respective monthly age do not, of course, widely vary, except as to those reported 11 months old, this number being considerably less than that shown at any other period, probably due to the fact that many infants 11 months old were returned to the enumerator as one year old. A similar tendency has been disclosed in previous censuses. As to the other months, the range of totals is from 4,014, reported as 10 months old, up to 5,450, reported as six months old. This last number is probably increased somewhat by a tendency to concentrate on the six months' period, at the expense of periods just preceding and following it.

The population 80 years of age or over is shown in detail, for all of the counties and for the State, in the recapitulation on pages 378 and 379, classified, as to native and foreign born, for each county and for the State, on pages 380 to 383. So far as the State at large is concerned, the aggregates, on page 383, show that, of the persons 80 years of age or over, 14,380 are native born, and only 4,130 foreign born. Among the native born persons of these ages, the females are in excess, numbering in the aggregate 8,802, while the males number but 5,578. A similar excess of females of these ages appears among the foreign born, such females numbering 2,425, as against 1,705 males. There were 18 persons reported 100 years of age or over who were native born, and 17 persons 100 years of age or over who were foreign born. Of the native born who had passed their one-hundredth birthday, five were reported as of age 100; four, 101; six, 102; one, 103; one, 105; and one, 111; this extreme age being reported for one male. Of the foreign born, five were reported of age 100; one, 101; four, 102; one, 103; two, 104; two, 105; and two, 108; the extreme limit in this case being reached by the females. There is, undoubtedly, a margin of error in reporting the ages of these extremely old persons, due to insufficient knowledge of the exact date of birth, and it is possible that this error is greater with respect to persons of foreign birth than as to those native born. In 1885, there were 43 persons reported 100 years of age or over, the extreme limit then, as now, being 111 years, one male being then reported of that age.

The presentation upon pages 384 to 423 contains a classification of ages by five-year periods for each town and city, followed by a classification by ten-year periods presented on pages 428 to 447. This classification to a great extent eliminates the error due to concentration upon certain periods, previously alluded to, and for most of the uses to which tables of ages are put, may be considered practically accurate. The recapitulations for the five-year periods, beginning on page 422, and for the ten-year periods, beginning on page 447, show the population under each period, classified by native and foreign born, and by sex, for the State and for each county.

Referring to the last named recapitulation, it will be seen that, of the entire population of the State, 459,766 are under 10 years of age; of whom 433,105 are native born and only 26,661 foreign born. Of ages 10 to 19, inclusive, there are, in the aggregate,

428,781 persons; of whom 341,491 are native born and 87,290 foreign born. Of ages 20 to 29, we find 521,392 persons; of whom 315,627 are native born and 205,765 foreign born. This is the most numerous decennial age period in the group. Of ages 30 to 39, there are 400,134; of whom 234,151 are native born and 165,983 foreign born. Of ages 40 to 49, there are 282,781 persons; comprising 164,001 native born and 118,780 foreign born. Of ages 50 to 59, there are 199,511; including 112,726 native born and 86,785 foreign born. Of ages 60 to 69, there are 125,283; of whom 75,194 are native born and 50,089 foreign born. The persons of ages 70 to 79 number in the aggregate 61,011; comprising 42,643 native born and 18,368 foreign born. Of ages 80 to 89, there are 16,918; including 13,193 native born and 3,725 foreign born. The persons of ages 90 to 99 number 1,557; comprising 1,169 native born and 388 foreign born. The persons 100 years of age or over number, as has been stated, 35; including 18 native born and 17 foreign born. Out of the whole population, there were 3,014 persons for whom the ages were reported as unknown. These include 1,935 native born persons and 1,079 foreign born.

In order that the various uses to which tables of ages are put may be provided for without requiring computation and aggregation on the part of the reader, the presentation on pages 450 to 509 shows, for the towns and cities, a classification of the population by selected age periods. This is followed by a recapitulation on pages 509 to 511. The periods selected are the following: the first two include persons between eight and 14 and between five and 15. These are the periods specified in the law relating to school attendance and the distribution of the school fund. The next period includes those under 21, and of course, shows the number of minors. The fourth period includes persons 21 years of age and over, and comprises persons of voting age. The next two periods, including those under 20, and those 20 years of age and over, separate the population into groups containing those who are ratable polls and those under the poll tax age. The seventh period includes persons between 18 and 45, which is the period of military service. The final period, between 16 and 60, includes persons generally denominated as industrially productive. In the case of the age periods "Between 8 and 14," "Between 5 and 15," "Between 18 and 45," and "Between 16 and 60" the first year mentioned in each is included, but the second is not.

Referring to the aggregates for the State, presented on page 509, we find that the total number of persons between eight and 14 is 247,491, of whom 215,047 are native born and 32,444 foreign born. Those between five and 15 number 427,019, of whom 376,157 are native born and 50,862 foreign born. The school law of the Commonwealth provides that every person having under his control a child between the ages of eight and 14 shall annually cause such child to attend school for at least 30 weeks in the year. The distribution of the Massachusetts School Fund is made in proportion to the number of persons between five and 15 years of age in the towns receiving it. The number of minors in the State, that is to say, persons under 21 years of age, is 940,217, of whom 809,333 are native born and 130,884 foreign born. The number of persons of voting age, namely, those 21 years of age or over, is 1,559,966, of whom 925,920 are native born and 634,046 foreign born. The males of this age period number 748,645, of whom 443,787 are native born and 304,858 foreign born. The number of females of voting age is 811,321, of whom 482,133 are native born and 329,188 foreign born. The number of persons 20 years of age and over (ratable poll age) is 1,611,636, of whom 960,657 are native born and 650,979 foreign born; 771,813 being males and 839,823 females. On the other hand, the number of persons under 20 years of age is 888,547, of whom 774,596 are native born and 113,951 foreign born; 442,888 being males and 445,659 females. The public statutes require that every able-bodied citizen of the age of 18 years and under the age of 45 years, except certain exempt persons, shall be enrolled in the militia. Persons of both sexes included within this age period number 1,170,936, of whom 567,164 are males and 603,772 females, the males of military age including 345,653 who are native born and 221,511 who are foreign born. Persons within the industrially productive age, namely, between 16 and 60 years of age, number in the aggregate 1,588,736, of whom the males number 768,201 and the females 820,535. The native born in this age period number 962,871, including 467,330 males and 495,541

females. On the other hand, the foreign born number 625,865, comprising 300,871 males and 324,994 females.

Certain comparisons between the years 1885 and 1895 require the introduction of analysis tables. The first gives a comparison of ages by periods of years.

Age Periods.	1885			1895		
	Males	Females	Total	Males	Females	Total
THE STATE.	932,884	1,009,257	1,942,141	1,214,701	1,285,482	2,500,183
Under 1 year,	17,953	17,935	35,888	24,682	24,251	48,933
1 to 4 years,	71,667	70,783	142,450	93,771	92,943	186,714
5 to 9 years,	91,517	90,325	181,842	112,296	111,823	224,119
10 to 14 years,	88,451	88,100	176,551	101,574	101,326	202,900
15 to 19 years,	90,570	96,677	187,247	110,565	115,316	225,881
20 to 29 years,	177,873	206,877	384,750	247,256	274,136	521,392
30 to 39 years,	138,425	148,794	287,219	198,441	201,693	400,134
40 to 49 years,	106,725	116,195	222,920	138,379	144,402	282,781
50 to 59 years,	73,792	82,968	156,760	94,232	105,279	199,511
60 to 69 years,	47,987	53,632	101,619	57,067	68,216	125,283
70 to 79 years,	21,948	27,287	49,235	27,601	33,410	61,011
80 years and over,	5,892	9,624	15,516	7,283	11,227	18,510
Age unknown,	84	60	144	1,554	1,460	3,014

This table of itself requires no particular explanation, but, from the totals of males and females for each of the periods, it is possible to compile a table showing the excess or deficiency of females over males so far as age is concerned, the aggregate excess of females in the population having previously been shown to be 70,781. This excess is distributed by age periods as regards native and foreign born persons in the following table:

Age Periods.	Males		Females		Excess (+), or Deficiency (−), of Females	
	Native	Foreign	Native	Foreign	Native	Foreign
THE STATE.	848,312	366,389	886,941	398,541	+38,629	+32,152
Under 1 year,	24,518	164	24,044	207	−474	+43
1 to 4 years,	91,045	2,726	90,087	2,856	−958	+130
5 to 9 years,	102,100	10,196	101,311	10,512	−789	+316
10 to 14 years,	86,598	14,976	86,148	15,178	−450	+202
15 to 19 years,	84,027	26,538	84,718	30,598	+691	+4,060
20 to 29 years,	152,344	94,912	163,283	110,853	+10,939	+15,941
30 to 39 years,	114,243	84,198	119,908	81,785	+5,665	−2,413
40 to 49 years,	80,056	58,323	83,945	60,457	+3,889	+2,134
50 to 59 years,	53,031	41,201	59,695	45,584	+6,664	+4,383
60 to 79 years,	53,831	30,837	64,006	37,620	+10,175	+6,783
80 years and over,	5,578	1,705	8,802	2,425	+3,224	+720
Age unknown,	941	613	994	466	+53	−147

In the periods under one year, one to four years, five to nine years, and 10 to 14 years, the native born males are in excess. In every other period the native born females outnumber the native born males. In the period 30 to 39 years, the foreign born males are in excess; in every other period the foreign born females are in excess. The excess of females is greatest, both as to native and foreign born females, in the periods 20 to 29 years and 60 to 79 years. In the period 20 to 29 years, there are 10,939 more females native born than males native born, and 15,941 more females foreign born

than males foreign born. In the period 60 to 79 years, the excess of native born females over native born males is 10,175, and the excess of foreign born females over foreign born males, 6,783.

Bringing the figures in the foregoing tables to a basis of totals, we have the results presented in the following table:

Age Periods.	Total Males	Total Females	Excess (+), or Deficiency (−), of Females
THE STATE.	1,214,701	1,285,482	+70,781
Under 1 year,	24,682	24,251	−431
1 to 4 years,	93,771	92,943	−828
5 to 9 years,	112,296	111,823	−473
10 to 14 years,	101,574	101,326	−248
15 to 19 years,	110,565	115,316	+4,751
20 to 29 years,	247,256	274,136	+26,880
30 to 39 years,	198,441	201,693	+3,252
40 to 49 years,	138,379	144,402	+6,023
50 to 59 years,	94,232	105,279	+11,047
60 to 79 years,	84,668	101,626	+16,958
80 years and over,	7,283	11,227	+3,944
Age unknown,	1,554	1,460	−94

From this table it is clearly apparent that the greatest concentration in any one period, of excess of females, is in the period 20 to 29 years, this excess being 26,880. By way of comparison it may be stated that in 1885 there were 29,004 more females than males between those ages. This table also shows that the excess of females in the population is entirely above the age of 14 years, the periods below that limit showing a deficiency of females ranging from 248, in the period 10 to 14 years, to 828 in the period one to four years.

We have said that the age period between 16 and 60 includes persons usually denominated as of industrially productive age. Classing all others as of dependent age, the dependent and productive ages of the people are shown for the State and counties in the following table, which permits a comparison between 1885 and 1895:

The State, and Counties.	Total Population		Under 16		Between 16 and 60		60 and Over	
	1885	1895	1885	1895	1885	1895	1885	1895
THE STATE.	1,942,141	2,500,183	571,943	703,629	1,203,684	1,588,736	166,514	207,818
Barnstable,	29,845	27,654	7,819	6,929	17,530	16,164	4,496	4,561
Berkshire,	73,828	86,292	24,111	26,335	42,988	52,171	6,729	7,786
Bristol,	158,498	219,019	49,148	67,550	96,294	134,697	13,056	16,772

Hampden,	116,764	152,938	35,972	45,839	71,856	95,589	8,936	11,510
Hampshire,	48,472	54,710	14,148	15,265	28,864	33,432	5,460	6,013
Middlesex,	357,311	499,217	105,033	138,998	223,227	320,661	29,051	39,558
Nantucket,	3,142	3,016	655	571	1,749	1,761	738	684
Norfolk,	102,142	134,819	29,705	37,605	62,210	84,449	10,227	12,765
Plymouth,	81,680	101,498	21,969	26,516	50,224	63,526	9,487	11,456
Suffolk,	421,109	539,799	120,520	145,844	273,079	358,769	27,510	35,186
Worcester,	244,039	306,445	75,772	90,810	145,460	188,072	22,807	27,563

Of the whole population in 1895, 1,588,736 are between 16 and 60 years of age, as against 1,203,684 in 1885. The number under 16, and dependent by reason of being below the industrially productive age limit, is 703,629, as against 571,943 in 1885; while the number above the industrially productive age limit, and classed as dependent by reason of age, is 207,818, as against 166,514 in 1885. It is of course, understood, that the limits set to the industrially productive age period are arbitrary and in accordance with general usage, not necessarily in accordance with the actual fact, as persons above 60 years of age do not always cease to be industrially effective. Within the ordinary limitations, however, the classification employed is accurate.

The facts contained in this table are reduced to percentages in the table which follows:

The State, and Counties.	Total Population		Percentages					
			Under Productive Age (under 16)		Of Productive Age (Between 16 and 60)		Above Productive Age (60 and Over)	
	1885	1895	1885	1895	1885	1895	1885	1895
THE STATE.	1,942,141	2,500,183	29.45	28.14	61.98	63.55	8.57	8.31
Barnstable,	29,845	27,654	26.20	25.06	58.74	58.45	15.06	16.49
Berkshire,	73,828	86,292	32.66	30.52	58.23	60.46	9.11	9.02

Confining our attention to the persons of productive age (between 16 and 60), we note that they comprise 63.55 per cent of the entire population in 1895, as against 61.98 per cent in 1885. The proportion of population found in this class in the different counties varies somewhat, the smallest percentages being found in the counties of Barnstable and Nantucket, these percentages being 58.45 and 58.39, respectively. The county of Franklin also has a small percentage of persons of the productive age, namely, 59.99. The largest percentage is found in the county of Suffolk, namely, 66.46; in Essex and Middlesex counties also there are comparatively large percentages, namely, 64.41 and 64.23. The level reached in Suffolk County reflects the movement of young persons to the city of Boston for employment. The highest percentages above the productive age (60 and over), are found in Barnstable County, 16.49; Dukes County, 17.58; Franklin County, 11.89; Hampshire County, 10.99; Nantucket County, 22.68; and Plymouth County, 11.29. The extremely high percentages found in Barnstable and Dukes counties, and especially in Nantucket County, reflect the movement of young persons away from these counties. These counties, except Franklin and Hampshire, contain the smallest percentages of population under the productive age (under 16). It will be noted, however, that while the percentage of persons above the productive age has increased in Barnstable County, as compared with 1885, no great change is apparent in Dukes County, and in Nantucket County a slight decline appears.

Relation to Head of Family.

Relation to Head of Family.

This presentation shows, for each town, city, county, and for the State, the number of heads of families, by sex and the relation of each male or female person in the family to the head of the family.

As, for Census purposes, a family includes all collections, large or small, of people living under a common roof, the table shows, in addition to those who are relatives by blood, those having relationships by reason of marriage, adoption, etc. It shows also the number of boarders and lodgers in boarding and lodging houses and guests in hotels; the number of patients in hospitals and inmates of institutions; the number of pupils in seminaries and boarding schools and students in colleges residing in dormitories connected with the schools, seminaries, or colleges; the number of domestic and personal servants, stewards, housekeepers, and companions in private families, boarding and lodging houses, and hotels and institutions generally; the number of superintendents and matrons in schools, colleges, and institutions generally; the number of hired men and boys who reside with the head of the family by whom they are employed but for whom they render other than domestic service; the number of visitors not residing permanently in the families in which they were enumerated; and the number of assistants, this being a general term covering service either of a personal or business nature. Various other relationships too numerous to mention are included under the general heading "other relationships," while those for whom the relation to head of family is not given are included under the heading "not specified."

Boarders comprise those persons who sleep and board in one place, and include those living in boarding houses and in small hotels; lodgers are those persons who room in one place and board in another; guests include those persons residing temporarily in the smaller hotels, and guests generally in hotels in Boston and the larger cities.

The designation "hired men and boys" was adopted in order to include a very large body of people usually found in farming districts whose occupation is that of farm laborer and who usually reside in the family of the person by whom they are employed. In many instances this relationship was originally returned as that of servant, but it is considered that the designations "hired man" and "hired boy" more clearly indicate the relationship.

The relationship to the head of family of the whole number of males and females classified as to native born and foreign born for the cities of the State is shown on pages 554 to 569 *post*, and can also be supplied, if desired, for each town in the State.

The showing by relation to head of family for the State only, by age periods, is given on pages 570 to 572 *post*.

Tabular Analysis.

Pages
Relation to Head of Family, ... 519-572

The presentation entitled "Relation to Head of Family" shows the relationship which each person in the State bears to the head of the family in which such person lives. In 1875, this was shown for those persons only who were not engaged in gainful employment, but were simply living at home. In 1885, however, the presentation was broadened to show for the first time the distribution of the whole population by such relationship. Up to that time no such tabulation had ever been made in any Census, either State or National, although the National Census of 1880 included the necessary interrogatories in its schedules. The form of presentation adopted in 1885 is practically embodied in the present tabulation, and we are therefore able to make comparisons showing the changes in the composition of the family, as affected by relationship, which have taken place during the decade. All the facts contained in this presentation are of importance in the study of the important social questions which are affected by or relate to the status of the family.

The recapitulation for the State, by age periods, appears on pages 570 to 572. From this recapitulation we learn that of the whole number of males, or 1,214,701, there are 456,577 who are heads of families; of whom 260,964 are native born and 195,613 foreign born. Of the females, who number in the aggregate 1,285,482, there are 90,808 who are heads of families; comprising 50,300 native born and 40,508 foreign born. Instances in which the head of the family was the wife, but in which the husband was nevertheless a member of the family, number 85, including 42 native born and 43 foreign born. At first sight this appears to be an anomalous condition, but a moment's thought will show that there are circumstances, although few, as shown by the figures, in which the wife may properly be considered the head of the family. For example, the husband may be an invalid, the entire charge of the family falling upon the wife, and constituting her in fact the head. The corresponding relationship of wife, the head of the family being the husband, occurs in 415,358 cases, the native born numbering 234,171 and the foreign born, 181,187. The various degrees of blood and legal relationship within the family are numerically represented in the table, the most numerous, of course, being the sons and daughters, the first numbering 503,234 and the last 508,346. Males sustaining the relationship of boarders number 69,662, of whom 30,244 are native born and 39,418 foreign born; while the lodgers among the males number 63,234, of whom 36,681 are native born and 26,553 foreign born. On the other hand, the female boarders number 30,634, of whom 19,076 are native born and 11,558 foreign born; while the female lodgers number 31,690, of whom 21,099 are native born and 10,591 foreign born. Persons holding the relation of domestic servants to the head of the family also form a numerous class, there being under this designation 3,214 males, of whom 1,526 are native born and 1,688 foreign born; and 61,386 females, of whom 16,280 are native born and 45,106 foreign born. There are 5,046 fathers and 15,605 mothers of the heads of families, living with such heads. Among the designations of relationship appear guests (hotel), patients, inmates, pupils, and students. These, in each case, comprise

the number of such persons, respectively, as are found within distinct families or groups classed as families under the Census system of family designation, explained on page 521.

The aggregates contained in the recapitulation which are, of course, based on the details included within the main presentation, are brought forward in the following table, with percentages, so as to show the relative proportions of the different designated groups of relations within the families:

* Less than one one-hundredth of one per cent.

Disregarding the numbers presented in this table, many of which have been already cited, we confine our attention to the percentages. From these it appears that 37.59

per cent of the males residing in the State are heads of the families in which they reside, and that 7.06 per cent of the females occupy a similar position. The males who are husbands but who reside in families of which their wives are the heads, being a very small class numerically, show only the fractional percentage of 0.01 of the whole number of males, while the females who are wives of the heads of the families of which they are members, constitute 32.31 per cent of the entire number of females. Of the whole number of males, 41.43 per cent hold the relationship of son, not including sons by adoption, sons-in-law, stepsons, and grandsons, each being a comparatively small class numerically. The daughters constitute 39.55 per cent of all the females, not including, as in the case of sons, adopted daughters, daughters-in-law, stepdaughters, and granddaughters. Persons who sustain the relationship of boarder to the head of the family in which they live constitute 5.74 per cent of all the males, and 2.38 per cent of all the females; while the lodgers comprise 5.21 per cent of all the males, and 2.47 per cent of all the females. Disregarding the designation of sex, and basing our comparisons on the aggregate number of persons of both sexes, we find that 21.89 per cent of the entire population are heads of families; 16.62 per cent of the entire population husbands and wives of such heads; 40.46 per cent, sons and daughters; 4.01 per cent, boarders; 3.80 per cent, lodgers; 2.58 per cent, domestic servants; 1.64 per cent, brothers and sisters; 1.08 per cent, brothers-in-law and sisters-in-law; and 1.19 per cent, grandsons and daughters; these specified classes comprising all groups which in the aggregate exceed one per cent of the entire population.

From the preceding table a summary is drawn from which the relation to the head of the family is shown in condensed form, comprehending the following degrees of relationship: "Heads of families," "Husbands and wives," "Blood relatives," "Legal relationships," Relations "by virtue of residence," Relations "by virtue of employment," and "Other relationships, and not specified." Legal relationships include those persons who are related to the head of the family by marriage, adoption, etc.; relationship by virtue of residence include boarders, lodgers, guests (hotel), patients, inmates, pupils, students, and visitors; relations by virtue of employment include domestic and personal servants, superintendents and matrons, stewards and housekeepers, assistants, wardens, hired men and boys, and companions; while the total number of uncles and aunts, nephews and nieces, and cousins are apportioned equally for want of an exact classification between blood relatives and legal relationships. There are probably some blood relatives included under the head of "Other relationships, and not specified."

With this explanation the table is introduced.

By virtue of employment, .	17,146	1.41	70,566	5.49	87,712	3.51
Other relationships, and not specified, ...	751	0.06	2,366	0.19	3,117	0.12

Disregarding the sex designation, it appears that, as previously stated, 21.89 per cent of the entire population are heads of families, and 16.62 per cent are husbands and wives. Blood relatives of the heads of the families in which they reside comprise 44.76 per cent of the entire population; those sustaining other legal relationships, 3.85 per

cent; those who are related by virtue of residence, 9.25 per cent; those related by virtue of employment, 3.51 per cent; while persons holding other relationships, and not specified, constitute the remaining 0.12 per cent of the total.

The distribution of the native and foreign born and the degree of relationship is shown in the two following tables:

Degrees of Relationship.	Native Born					
	Males		Females		Both Sexes	
	Number	Percentages	Number	Percentages	Number	Percentages
THE STATE.	848,312	100.00	886,941	100.00	1,735,253	100.00
Heads of families,	260,964	30.76	50,300	5.67	311,264	17.94

Legal relationships,	26,749	3.15	38,238	4.31	64,987	3.74
By virtue of residence,	81,805	9.64	50,351	5.68	132,156	7.62
By virtue of employment,	8,611	1.02	22,010	2.48	30,621	1.76
Other relationships, and not specified,	625	0.07	1,509	0.17	2,134	0.12

Degrees of Relationship.	Foreign Born					
	Males		Females		Both Sexes	
	Number	Percentages	Number	Percentages	Number	Percentages
THE STATE.	366,389	100.00	398,541	100.00	764,930	100.00
Heads of families,	195,613	53.39	40,508	10.16	236,121	30.87
Husbands and wives,	43	0.01	181,187	45.46	181,230	23.69
Blood relatives,	76,603	20.91	82,613	20.73	159,216	20.82
Legal relationships,	13,242	3.61	18,058	4.53	31,300	4.09
By virtue of residence,	72,227	19.71	26,762	6.72	98,989	12.94
By virtue of employment,	8,535	2.33	48,556	12.18	57,091	7.46
Other relationships, and not specified,	126	0.04	857	0.22	983	0.13

Referring only to the percentages shown in these tables, we note that 17.94 per cent of the native born persons in the State are heads of families, while 30.87 per cent of the foreign born are of this class. The much larger proportion of foreign born persons occupying the position of head of a family, as compared with the native born persons in this class, is accounted for by the fact, previously noted in our consideration of the conjugal condition of the population by age periods, that foreign born persons are generally married or at a marriageable age when they come to this country. There is, therefore, a much larger proportion of foreign born persons who are family heads than would be found among the native born persons. Among the native born, for the same reason, the proportion of husbands and wives of heads of families, namely, 13.50 per cent of the entire native born, is less than the proportion of husbands and wives of heads of families among the foreign born who constitute 23.69 per cent of the entire number of foreign born. On the other hand, and for the same reason, the proportion of blood relatives found in the native born families varies materially from the proportion of blood relatives found in the foreign born families, these percentages being, respectively, 55.32 and 20.82. Persons among the native born who hold legal relationship to the head of the family in which they live comprise 3.74 per cent of the entire number of native born, while among the foreign born this class represents 4.09 per cent of the entire number of foreign born. Among the native born, those who hold relationship by virtue of residence constitute 7.62 per cent of the total number, and among the for-

eign born this class constitutes 12.94 per cent of the total number. Native born persons who hold a relationship by virtue of employment comprise only 1.76 per cent of the entire number of native born, while foreign born persons who hold this relationship constitute 7.46 per cent of the entire number of foreign born.

There is one other classification of family relationships which is made in considering the social condition of the population, namely, that which turns upon residence at home, or in hotels, boarding or lodging houses, and institutions, or which grows out of domestic and personal service.

This classification is made in the following table:

Classification.	Males		Females		Both Sexes	
	Number	Percentages	Number	Percentages	Number	Percentages
THE STATE.	1,214,701	100.00	1,285,482	100.00	2,500,183	100.00
Living at home, ...	1,053,075	86.69	1,141,473	88.80	2,194,548	87.77
In hotels, boarding or lodging houses,	135,797	11.18	63,283	4.92	199,080	7.96
In institutions, ...	18,486	1.52	13,921	1.08	32,407	1.30
Domestic and personal servants, .	3,500	0.29	62,408	4.86	65,908	2.64
Not included in above classes, . .	3,843	0.32	4,397	0.34	8,240	0.33

The percentages shown in this table are extremely interesting. It appears, for example, that including both sexes, 87.77 per cent, or nearly 88 persons in the 100, are living in homes; 7.96 per cent, or nearly eight persons in the 100, are living in hotels and boarding or lodging houses; 1.30 per cent are in institutions; 2.64 per cent sustain a relation to the heads of the families in which they live, growing out of domestic and personal service performed in such families; while the persons not indicated in the above classes constitute only 0.33 per cent of the entire population. It is interesting also to note that the persons whose family connection is confined to their residence in hotels, boarding or lodging houses include 11.18 per cent of all the males in the State, or about 11 in every 100; 4.92 per cent of all the females, or about five in every 100; and the persons whose connection with the family in which they reside is confined to the fact that they perform domestic or personal service therein, include only 0.29 per cent of all the males, while 4.86 per cent of all the females, nearly five in every 100, are found in this class. The disparity between the relative proportions of the sexes in the other classes is not material. This table exhibits to a degree the variation from the normal family type, represented fairly well by the number living at home, as shown in the growth of the other classes, especially the class whose relationship is confined to residence in hotels, boarding or lodging houses. It is, therefore, of value to make comparison between the facts shown in this table and similar data secured in 1885.

This comparison is made in the following table:

Classification.	Percentages					
	Males		Females		Both Sexes	
	1885	1895	1885	1895	1885	1895
THE STATE.	100.00	100.00	100.00	100.00	100.00	100.00
Living at home, ...	88.18	86.69	88.34	88.80	88.27	87.77
In hotels, boarding or lodging houses, .	9.92	11.18	5.02	4.92	7.37	7.96
In institutions, ...	1.39	1.52	1.01	1.08	1.19	1.30
Domestic and personal servants, . .	0.33	0.29	5.37	4.86	2.95	2.64
Not included in above classes, . .	0.18	0.32	0.26	0.34	0.22	0.33

Males who were living at home in 1885 constituted 88.18 per cent of all the males, and the percentage has declined in 1895 to 86.69 per cent. Females who were living at home in 1885 constituted 88.34 per cent of all the females, and the percentage remains substantially the same in 1895, namely, 88.80. The males who were living in hotels, boarding or lodging houses formed 9.92 per cent of all the males in 1885, and the percentage has risen to 11.18 in 1895. On the other hand, females who were of this class, constituted 5.02 per cent of all the females in 1885, and the percentage has declined to 4.92 in 1895. Males in institutions constituted 1.39 per cent of all the males in 1885, and 1.52 per cent in 1895; females of this class comprised 1.01 per cent of all the females in 1885, and 1.08 per cent in 1895, showing that both with respect to males and females in institutions the percentages are very slightly changed in the 10 years. Males who held the relation of domestic or personal servants to the head of the family in which they resided, constituted 0.33 per cent of all the males in 1885, and 0.29 per cent of all the males in 1895; a very slight decline. Females of this class constituted 5.37 per cent of all the females in 1885, and the percentage has declined to 4.86 in 1895. Disregarding the question of sex, 88.27 per cent of the entire population were living at home in 1885, while in 1895, 87.77 per cent of the population were found in this class; a slight decline. Persons who resided in hotels, boarding or lodging houses constituted 7.37 per cent of the entire population in 1885, and this has risen to 7.96 per cent in 1895; a merely fractional increase. The other classes represented in the table have shown but little change when considered as percentages of the entire population. These figures indicate a remarkably stable condition of the family in Massachusetts during the 10 years.

Place of Birth.

Place of Birth.

The distribution of the people by place of birth is shown in the following table, giving, by sex, for each county, city, and town, and for the State, the number born in each State or in the Territories, for native born persons, and the number born in each of the principal Foreign Countries, for foreign born persons.

Of the persons born in Massachusetts, the number is given respectively for those born in the town or city in which enumerated; for those born in other towns or cities in the State, and for those concerning whom this distinction is not specified and for whom the place of birth is returned simply as "Massachusetts."

For persons born in Canada, the results are subdivided, showing the number of persons born in Canada of French and English extraction, respectively.

The italic letters, *n. s.*, following "United States," "British America," and Foreign Born are an abbreviation of the words, "not specified."

A recapitulation by groups is given, comprehending the following classification of the several States and Territories and Foreign Countries for which place of birth is shown:

Native Born. — *North Atlantic Division:* Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

South Atlantic Division: Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, and Florida.

North Central Division: Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, and Kansas.

South Central Division: Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Indian Territory, and Arkansas.

Western Division: Montana, Wyoming, Colorado, New Mexico Territory, Arizona Territory, Utah, Nevada, Idaho, Washington, Oregon, and California.

United States, not specified.

Foreign Born. — Asia (Asia, *n. s.*, China, and Japan); British America (British America, *n. s.*, Canada (English), Canada (French), New Brunswick, Newfoundland, Nova Scotia, and Prince Edward Island); Other British Possessions; Central America; Cuba and West Indies; Europe, excepting Great Britain and Ireland (Austria, Belgium, Bulgaria, Denmark, France, Germany, Greece, Holland (Netherlands), Italy, Norway, Poland, Portugal, not including Western Islands, Roumania, Russia, Servia, Spain, Sweden, Switzerland, and Turkey); Great Britain (England, Scotland, and Wales); Ireland; Mexico; Sandwich Islands (Hawaii); South America; Western Islands; American citizens born abroad; persons born at sea; and foreign countries, not specified.

The grouping of States is in accordance with a classification used in the presentation of results for the Eleventh Census of the United States in 1890. Under North Atlantic States, a further subdivision of States is made, as follows: — Massachusetts; Other New England States, comprising Maine, New Hampshire, Vermont, Rhode Island, and Connecticut; and other North Atlantic States, comprising New York, New Jersey, and Pennsylvania.

A showing of place of birth, by age periods, is given, for the State only, on pages 700 to 707, *post*.

PLACE OF BIRTH.

[The italic letters, *n. s.*, denote the abbreviation of the words "not specified."]

Tabular Analysis.

	Pages
Place of Birth, ...	579-708

The distribution of the population by place of birth is shown in the presentation pages 579 to 708, the first recapitulation appearing upon pages 699 to 701. In this presentation the aggregates showing the number of persons born in Massachusetts are subdivided so as to show the number born in each town or city named, the number born in other towns or cities, and the number whose particular place of birth within the State was not specified. As to the foreign born, the only subdivision which appears in the main table, or in the recapitulation referred to, is that as to persons born in Canada, showing the number of English and of French extraction. Referring to the figures which appear in the recapitulation, we note that of the number of persons native born, of both sexes, namely, 1,735,253, there were 1,365,988 who were also natives of Massachusetts, and these being subdivided comprise 893,326 persons who were born in the town or city named, that is to say, in the town or city in which they resided at the time of the Census, and 466,280 others who were born in other Massachusetts towns or cities; while this discrimination as to the particular place of birth was not made in the case of 6,382 persons. There is no unusual preponderance of one sex over the other, so far as shown in these aggregate figures. A close inspection of the main table will show, as to certain cities and towns, whether or not an undue proportion appears of either males or females, owing to the fact that industrial or other reasons have led to a slightly different movement to or from such towns and cities, on the part of one or the other of the sexes.

Referring only to the totals for both sexes, it will be found that of the natives of States other than Massachusetts, persons born in Maine are the most numerous, such persons numbering in the aggregate 93,115; natives of New Hampshire number 62,279; those of New York, 62,003; those of Vermont, 37,431; those of Connecticut, 30,282; and those of Rhode Island, 25,324. Of the natives of Maine, the males number 43,307 and the females 49,808, the females thus showing an excess of 6,501. The natives of New Hampshire comprise 30,083 males and 32,196 females, the excess of females being 2,113. The males who were natives of New York number 29,861, and the females 32,142, showing an excess of females of 2,281. The males who were natives of Connecticut number 14,480, and the females 15,802, showing an excess of females of 1,322. Of the natives of Vermont and Rhode Island, respectively, the males and females in each case practically balance each other. Of the foreign born, persons born in Ireland are the most numerous, numbering in the aggregate 258,247. The next largest number comprises persons of Canadian birth, numbering in the aggregate 165,224, of whom 109,763 are French Canadians and 55,461 English Canadians. Besides these, there were 48,625 persons who were born in Nova Scotia; 20,538 born in New Brunswick; 7,591 born in Newfoundland; 9,345 born in Prince Edward Island; and 23 persons who were natives of British America, the particular part thereof not being stated. The natives of England number 81,970, and persons born in Scotland, 24,554; while, besides these,

there are 1,608 persons who were born in Wales, and 961 who were natives of other British Possessions. Natives of Germany number 31,151; of Italy, 15,459; of Portugal, 13,298; of Russia, 22,158; and of Sweden, 28,541, the countries named being those that are represented by the most numerous groups among the foreign born.

The recapitulation on pages 700 to 707 shows, for the State, the distribution of the population by place of birth and by age periods. The distribution of the native and foreign born, respectively, by age periods, has already been analyzed.* This recapitulation will enable the reader to discover the particular strength of the accessions which our population has received from States other than Massachusetts and from the different foreign countries, with respect to ages. In this table, also, the aggregates showing the number of persons born in Austria, Germany, Portugal, and South America, are subdivided so as to show the number born in certain territorial subdivisions of each country. We need only refer in our analysis to two or three salient lines. Natives of Canada, for example, who number in the aggregate 165,224, comprise 222 persons under one year of age, 2,362 in the period one to four, 7,874 in the period five to nine, 10,871 in the period 10 to 14, and 19,293 in the period 15 to 19. These persons, comprising all persons under 20 years of age of Canadian birth, number in the aggregate 40,622, representing the accessions which our population has received of young persons and children of Canadian birth. Toward these young persons and children who come to us from abroad, the Commonwealth sustains peculiar responsibilities. Many of them must be educated here, and under the influence of our environment they will undergo certain modifications of character, which are not likely to appear in the immigrant of adult years. The French Canadians, who number in the aggregate 109,763, include 195 persons under one year of age, 1,869 in the period one to four, 6,162 in the period five to nine, 8,238 in the period 10 to 14, and 14,641 in the period 15 to 19, the aggregate number under 20 years of age being 31,105. Persons of Italian birth number in the aggregate 15,459. It is interesting to discover how many of these are represented by young persons and children. The table shows that 11 were under one year of age, 294 in the period one to four, 652 in the period five to nine, 830 in the period 10 to 14, and 1,261 in the period 15 to 19, the aggregate number of persons of Italian birth in the age periods mentioned being 2,958. Persons born in Russia, of whom comparatively large accessions have been received in recent years, number in the aggregate 22,158. Of these, there are five under one year of age, 345 in the period one to four, 1,809 in the period five to nine, 1,947 in the period 10 to 14, and 2,483 in the period 15 to 19, the aggregate number under 20 years of age being 6,589. Other similar comparisons bearing upon the growth of the population with respect to the ages of the persons who have come to us from abroad, may easily be made from the table.

The recapitulation on page 708 shows a summary derived from the figures contained in the main table, in which the persons of native birth are shown by groups of States; and, as to the persons of foreign birth, the countries comprising the leading geographical divisions are brought together in such a manner as to permit convenient comparisons. Referring to this recapitulation, for example, we find that of the entire population of the State, 2,500,183, there were 1,691,711 persons born in the North Atlantic States, of whom 1,365,988 were born in Massachusetts, 248,431 in other New England States, and 77,292 in other North Atlantic States. Natives of the South Atlantic States number 16,344; of the Northern Central States, 17,722; of the Southern Central States, 2,715; and of the Western States, 2,374; while natives of the United States, the particular State of birth not being known, number in the aggregate 4,387. Of the foreign born, Africa has sent us 129. Persons born in countries of Asia, including those who appear in the main presentation under the head of Asia (not specified), China, and Japan, number 2,256; natives of British America (not specified), 251,346; other British Possessions, 961; Central America, 12; Cuba and West Indies, 880; countries of Europe, excepting Great Britain and Ireland, 127,068; Great Britain, 108,132; Ireland, 258,247; Mexico, 31; Sandwich Islands (Hawaii), 42; South America, 211; and the Western Islands,

* See pages 222-225, *ante*.

9,898. The American citizens born abroad number 4,855; persons born at sea, 387; and natives of foreign countries (not specified) 475.

The following analysis table exhibits a comparison between 1885 and 1895, showing the numerical increase or decrease for the decade:

Place of Birth.	1885	1895	Increase (+), or Decrease (−), in 1895 as Compared with 1885
THE STATE.	1,942,141	2,500,183	+558,042

Mexico,	23	31	+8
Sandwich Islands (Hawaii),	29	42	+13
South America,	157	211	+54
Western Islands,	5,096	9,898	+4,802
American Citizens (born abroad),	3,611	4,855	+1,244
At sea,	361	387	+26
Foreign Countries, *n. s.*,	271	475	+204

* Includes Asia, *n. s.*, China, and Japan. † Excepting Great Britain and Ireland.

From this table it appears that while the native born population of the State shows an increase of 319,979 persons, the increase of persons born in the North Atlantic States is 305,019, of whom 248,548 were born in Massachusetts. The increase of persons born in other New England States is 31,706, and of natives of other North Atlantic States, 24,765. Of persons born in the South Atlantic States, there is an increase of 5,632; of natives of the Northern Central States, 7,181; of natives of the Southern Central States, 935; and of the Western States, 1,184. As to the foreign born, the total increase being 238,063, we find an increase of the natives of British America (not specified) aggregating 103,994; of natives of Great Britain, 34,202; of persons born in Ireland, 13,618; while the increase of natives of countries of Europe, other than Great Britain and Ireland, is 78,903.

These figures are reduced to percentages in the following table, which shows the percentage which the number of persons of each specified place of birth constituted of the total population and of the native born and foreign born population in 1885 and 1895, with percentages of each place of birth of the total increase:

Place of Birth.	Percentages of Total Population		Percentages of Total Increase	Percentages of Native Born and Foreign Born	
	1885	1895		1885	1895
THE STATE.	100.00	100.00	100.00	-	-

† Excepting Great Britain and Ireland.
‡ Less than one one-hundredth of one per cent.

The percentages in the foregoing table show that while the native born population constituted 72.87 per cent of the total population in 1885, this class constitutes 69.41 per cent of the total population in 1895. Natives of the North Atlantic States comprised 71.40 per cent of the total population in 1885 and 67.66 per cent in 1895; but while the proportion which this class constitutes of the total population shows a decline during the decade, the percentage which natives of the North Atlantic States formed of the total native born population at each period is substantially the same, being 97.98 in 1885 and 97.49 in 1895. Natives of Massachusetts have declined from 57.54 per cent of the total population in 1885 to 54.63 per cent in 1895, such persons constituting 78.96 per cent of the total native born population in 1885 and 78.72 per cent in 1895. The percentages of total increase shown in natives of the North Atlantic States and in natives of Massachusetts during the decade are, respectively, 54.66 and 44.54; the total native born showing an increase of 57.34 per cent. The natives of other New England States constituted 11.16 per cent of the total population in 1885, and in 1895 this percentage has declined to 9.94, although persons of this class show an increase of 5.68 per cent during the decade: Natives of the other North Atlantic States, who formed 2.70 per cent of the total population in 1885, now constitute 3.09 per cent of the total population,

the percentage of total increase being 4.44. Natives of each of the other groups of States formed only a fractional percentage of the total population at each period, the changes being comparatively slight, although each class shows an increase.

The increase in the foreign born as a whole during the decade was 42.66 per cent, persons of foreign birth forming 27.13 per cent of the total population in 1885 and 30.59 per cent in 1895. Natives of British America (not specified) show an increase of 18.64 per cent, such persons comprising 7.59 per cent of the total population in 1885 and 10.05 per cent in 1895. Natives of Ireland, who comprised 12.59 per cent of the total population in 1885, now form but 10.33 per cent, the increase of persons in this class being but 2.44 per cent during the decade. Natives of Europe, not including Great Britain and Ireland, formed 2.48 per cent of the population in 1885, and in 1895 such persons constituted 5.08 per cent of the total population, the increase during the decade being 14.14 per cent. Without alluding to the other countries shown in the table, we may point out that with respect to the foreign born as a whole, persons born in British America (not specified) constituted 27.97 per cent of the total foreign born in 1885, and in 1895, 32.86 per cent. On the other hand, natives of Ireland, who constituted 46.43 per cent of the total foreign born in 1885, now constitute but 33.76 per cent of the total. Natives of Great Britain constituted 14.03 per cent in 1885, and 14.14 per cent in 1895; while natives of Europe, not including Great Britain and Ireland, who formed only 9.14 per cent of the total foreign born in 1885, now constitute 16.61 per cent of the total. Of the natives of Europe, not including Great Britain and Ireland, persons born in Italy, Poland, Portugal, Russia, and Sweden have exceptionally large increases. In 1885, natives of Italy numbered 3,989, and in 1895 such persons numbered 15,459, the increase being 287.54 per cent. Persons born in Poland numbered 1,260 in 1885, increasing to 7,277 in 1895, an increase of 477.54 per cent. Persons born in Portugal, including natives of the Western Islands, numbered 6,118 in 1885, increasing to 13,298 in 1895, an increase of 117.36 per cent. Persons of Russian birth numbered 1,860 in 1885, and in 1895 these persons numbered 22,158, an increase of 1,091.29 per cent. The natives of Sweden numbered 9,436 in 1885, increasing to 28,541 in 1895, an increase of 202.47 per cent.

It is interesting to note the interstate migration and its effect upon the population of Massachusetts. The following table shows the number of people coming into Massachusetts from other States, and going into other States from Massachusetts, for the years 1880 and 1890, drawn from the Federal Censuses of these years. The number of people living in Massachusetts in 1895 who were born in other States has been shown in the preceding presentation, based upon the Decennial Census of Massachusetts, but for information as to the number of people living in other States, who were born in Massachusetts, such as is given in the following table, we are obliged to rely upon National Censuses:

267,730	274,740	Totals,	251,021	315,959

The totals of this table show that at the date of the National Census of 1880, there were 267,730 persons found in States or Territories other than Massachusetts, who had emigrated from Massachusetts; in 1890 this number had increased to 274,740. On the other hand, in 1880 there were 251,021 residents of Massachusetts who had come in from other States or Territories, and this number had increased in 1890 to 315,959. The gains of the State as a whole from other States, as shown in the Census of 1890, were much greater than the losses of the State to other States.

Confining our analysis to the figures for 1890 only, and taking some of the States which show the largest numbers of persons moving to and fro, we find that persons residing in California who had come from Massachusetts numbered 19,738, while natives of California who formed part of the population of Massachusetts numbered only 1,038. On the other hand, persons who had emigrated from Massachusetts into Connecticut numbered 25,810, while the accessions to the population of Massachusetts from Connecticut, numbered 25,403, the figures practically balancing each other. In Illinois, there were 18,393 persons who had come from Massachusetts, while natives of Illinois who had come into Massachusetts numbered but 3,013. Other Western States, as a rule, show much larger accessions of population from Massachusetts than Massachusetts had gained from them, although the figures do not in any case rise so high as in California and Illinois.

Comparisons based on the movements to and from the New England States other than Connecticut, show in Maine 10,386 persons who had come from Massachusetts, while at the date named there were 86,988 persons in Massachusetts who had come from Maine. Natives of Massachusetts found in New Hampshire numbered 21,311, while natives of New Hampshire found in Massachusetts numbered 57,745. Vermont had gained only 7,244 people from Massachusetts, while we had received from Vermont 34,393. In Rhode Island, natives of Massachusetts found in that State numbered 25,574, while natives of Rhode Island found here numbered 21,044. Both Rhode Island and Connecticut have drawn more population than they have returned. The natives of each of the States found in Massachusetts in 1895 may, as we have said, be discovered from the place of birth presentation and may be compared with similar figures shown in this table derived from the Censuses of 1880 and 1890.

Length of Residence.

LENGTH OF RESIDENCE.

Under the above heading two presentations are given, as follows:

LENGTH OF RESIDENCE: BY NATIVE AND FOREIGN BORN. FOR TOWNS.

LENGTH OF RESIDENCE: BY NATIVE AND FOREIGN BORN AND AGE PERIODS. FOR CITIES, COUNTIES, AND THE STATE.

In the first presentation, the classified length of residence of both native born and foreign born persons, by sex, in the town named, in Massachusetts, and in the United States, is shown. The classification of length of residence under the town named has but two divisions; for Massachusetts and the United States, respectively, there are eight divisions, the classification being identical.

The proper method of reading the table is as follows: first, under town named (Barnstable) there are 122 males and 48 females (native born), 12 males and 8 females (foreign born) who had lived in the town of Barnstable six months or less on May 1, 1895. Second, under Massachusetts, there are 575 males and 604 females (native born), 29 males and 52 females (foreign born) who had lived in Massachusetts from 10 to 29 years on May 1, 1895, being at that time residents of the town of Barnstable. Third, there are 974 males and 1,136 females (native born), 34 males and 34 females (foreign born) who had lived in the United States 30 years and over on May 1, 1895, being at that time residents of the town of Barnstable. Other lines may be read in the same way.

In the second presentation, for cities, counties, and the state, in addition to the information as regards native and foreign born and sex, these details are sub-divided so as to show the following age periods: 9 years or under, 10 to 19 years both inclusive, and 20 years and over.

Tabular Analysis.

	Pages
Length of Residence: By Native and Foreign Born. For Towns, .	717-771
Length of Residence: By Native and Foreign Born and Age Periods. For Cities, Counties, and the State, ...	772-805

The presentation on pages 717 to 805, inclusive, arranged in two sections, contains the statistics as to length of residence of the population. The first section, beginning on page 717 and extending to page 771, shows length of residence, by native and foreign born, for towns. The remainder of the table shows length of residence, for native and foreign born, by age periods, for cities, counties, and for the State. As explained in the note on page 719, the classification of length of residence under the town name has but two divisions For example, the table shows in one division the number of persons by sex, and whether native born or foreign born, who had lived in the town wherein they were enumerated six months or less; and it also shows in another division those who had lived in such town from seven to twelve months of the Census year. With respect to residence in Massachusetts and the United States, there are eight divisions, by means of which there are shown the number of persons, by sex, and whether native born or foreign born, found in each city or town, who had lived in Massachusetts or the United States under two years; two years; three and four years; five years; six to nine years; 10 to 29 years; and 30 years and over. The method of reading the table is clearly explained in the note to which we have referred.

The data as to length of residence are of great importance in estimating social conditions within the Commonwealth. The perpetuity of our institutions, the progress toward a better civilization, depend in no slight degree on the continuity of residence on the part of those who come to us from abroad, as well as of those who are native born. It is not possible that the movement Westward of our native born citizens can continue in the same ratio as in the past; and if the foreign born who are attracted to the State remain here permanently, so that the effect of their environment in Massachusetts can make itself felt, it will do much toward promoting the assimilation of the diverse elements which now make up our population.

In a subsequent volume presenting the figures as to the occupations of the people, we shall refer again to this question of length of residence, showing its relation to the industrial development and present industrial condition of the State. It is not practicable to occupy a great deal of space here in pointing out the full bearing of these statistics, but the student, of social phenomena, and especially those who are tracing the growth and character of the population in our different municipalities, will find them of value. A few of the more obvious facts may be summarized, however.

In the first place, considering the population as a whole, the total population being 2,500,183, there were 139,613 persons who had lived but six months or less in the city or town wherein they lived at the date of enumeration, May 1, 1895. These 139,613 persons comprised 49,942 foreign born and 89,671 native born. The foreign born males in this class numbered 27,529 and the foreign born females 22,413; on the other hand, the native born males numbered 45,846 and the native born females 43,825. Disregard-

ing for the moment the 2,672 for whom the facts as to length of residence were unknown, but most of whom had no doubt lived in the city or town at least six months, all the rest of the inhabitants had lived in the municipalities in which they were found from seven to twelve months of the Census year. Those for whom this fact was definitely ascertained numbered in the aggregate 2,357,898.

At least six months' residence prior to the first day of May is required before an adult male who possesses the other required qualifications can vote in the city or town wherein he resides, in any year. Of course, of those who had resided six months or less in the municipalities in which they were found, there were a certain number who had been born in the city or town during that period. Referring to the table of ages, pages 338 to 353, we may find the number of persons in each city or town who were six months old or less at the time of the enumeration. Aggregating the figures for persons six months old or less in the State at large, found upon page 352, it appears that in the aggregate there were 29,867 such persons, of whom 15,123 were males, 14,744 being females. Comparing these figures with those cited in the table now under consideration, it follows that there were 109,746 persons in Massachusetts over the age of six months who had lived in the city or town in which they were found less than six months; of these, 58,252 were males and 51,494 females. Of the total population, there were 120,029 persons who had resided in Massachusetts two years; 218,517, three and four years; 98,614, five years; 320,561, six to nine years; 968,753, 10 to 29 years; and 602,209, 30 years and over. There were only 13,500 persons for whom the facts as to length of residence could not be ascertained. The total number of persons found in the State at the time of the enumeration who had resided in the State less than 10 years was 915,721; of these, 350,136 were foreign born and 565,585 native born.

Referring to the presentation for the State, by age periods, pages 804 and 805, we find that the total number of persons under 10 years of age was 459,766, and that the aggregate number of persons who had lived in Massachusetts less than 10 years was 915,721, there being 456,488 such persons who were over 10 years of age; that is to say, there were 456,488 persons over 10 years of age who had lived in Massachusetts less than 10 years. The total number of such persons 20 years of age and over was 358,683, of whom 100,209 were native born and 258,474 foreign born. The number of persons who had resided in the State 30 years and over, namely, 602,209, constitutes about 24 per cent of the entire population of the State. The number of persons who had resided in the State at least 10 years was 1,570,962, or nearly 63 per cent of the entire population of the State. The number of foreign born persons who had resided in the State 30 years and over is 117,139, these persons constituting 15.31 per cent of the total foreign born population of the State; while the number of foreign born persons who had resided in the State at least 10 years was 408,805, or 53.44 per cent of the entire foreign-born population of the State.

The figures in the table which show length of residence in the United States bear no direct relation to those which show the length of residence in Massachusetts. For example, there were 158,000 persons who had resided in Massachusetts less than two years, while there were only 114,313 persons who had resided in the United States less than two years. And, generally, the number of persons in each class as to residence in Massachusetts is greater than the number of persons in the same class as to residence in the United States. This, however, is not the case with respect to the persons showing 30 years' residence and over. While such persons number 602,209 as to length of residence in Massachusetts, there were 770,012 persons residing in Massachusetts at the time of the enumeration who had resided in the United States 30 years and over. With respect to the foreign born, there were 134,173 persons who had resided in the United States 30 years and over, and 305,266 who had resided in the United States from 10 to 29 years; that is, there were in the aggregate 439,439 foreign born persons residing in Massachusetts at the date of enumeration who had lived in the United States at least 10 years, and these constitute 57.45 per cent of the total foreign born population of the State.

Of the foreign born females who had resided in Massachusetts less than two years, numbering in the aggregate 22,894, there were 2,561 who were nine years of age or under, that is to say, were less than 10 years of age; 6,255 were in the age period 10 to 19; and 14,078 were 20 years of age and over. Of the foreign born males who had had less than two years' residence in Massachusetts, numbering in the aggregate 24,177, there were 2,371 who were nine years of age or under; 4,775, 10 to 19, and 17,031, 20 years of age and over. Aggregating the foreign born females and males of the different age periods so as to show the number in each age period who had resided in the State less than 10 years, we find that, as to females, there were 13,534 such persons nine years of age or under; 34,581, 10 to 19; and 128,106, 20 years of age and over; while, as to males, there were 13,045 nine years of age or under; 30,502, 10 to 19; and 130,368, 20 years of age and over. As to foreign born males and females, respectively, who had resided in the State 30 years and over, it is, of course, necessarily true that such persons were all adults.

In a Commonwealth which has been practically open to unrestricted immigration during the last 30 years, which has rapidly increased in population by the aid of those who have come in from abroad or from other States; and which has lost a considerable number of its native born persons, who have emigrated to other States within that time, it is a fact of some significance that nearly 63 persons in every 100 have lived in the State more than 10 years, and that about 24 in every 100, all of whom are more than 30 years of age, have lived in the State more than 30 years.

While the data as to the State at large are of importance, they become especially significant when studied in detail for the counties, and for the different cities and towns. Take, for example, the city of Boston: The native born who have had 30 years' residence or more in Massachusetts numbered 74,901, or 15.07 per cent of the total population and 23.66 per cent of the native born population. There were in the aggregate 205,486 native born persons in this city who have had at least 10 years' residence in Massachusetts, and these constitute 41.35 per cent of the total population and 64.92 per cent of the native born population. The foreign born who have had 30 years' residence or more in the United States numbered 32,091, or 6.46 per cent of the total population and 17.79 per cent of the foreign born population. If we include the foreign born who have had at least 10 years' residence in the United States, we find the aggregate number to be 106,232, or 21.38 per cent of the total population and 58.89 per cent of the foreign born population.

In the city of Fall River, to take a rapidly growing factory city, the total number of native born residents who have lived in Massachusetts 30 years or more is 6,913, or 7.75 per cent of the total population and 15.47 per cent of the native born population. The number of native born persons who had resided in the State at least 10 years was 25,666, constituting 28.77 per cent of the total population and 57.44 per cent of the native born population. The proportion of native born population of total population or of total native population, in each of these classes, that is, persons who have had either 10 years' or 30 years' residence in Massachusetts, is much smaller than in Boston. How is it with respect to the foreign born? The total number of foreign born who have had 30 years' residence or more in the United States is 4,437, or 4.97 per cent of the total population and 9.97 per cent of the foreign born population. There were 23,770 foreign born residents who had lived in the Country at least 10 years, constituting 26.65 per cent of the total population and 53.39 per cent of the foreign born population. The percentages relating to 30 year residents among the foreign born are therefore considerably smaller than in Boston.

In Boston, about 40 persons in every 100 of the foreign born have had less than 10 years' residence in the United States, but in Fall River more than 46 persons in every 100 of the foreign born are of this class. In Boston, nearly 18 persons in every 100 of the foreign born have lived in the United States 30 years or more, while in Fall River only about 10 persons in every 100 have had 30 years' residence in the United States. In Boston, between 21 and 22 persons in every 100 of the total population are of foreign birth who have lived in the United States at least 10 years, and in Fall River there are

about 27 such persons in every 100. In Boston, the native born who have had 30 years' residence in Massachusetts number only 15 in every 100 of the total population, while in Fall River there are only about eight such persons in every 100 of the total population. The native born who have had at least 10 years' residence in Massachusetts number about 41 in every 100 of the total population in Boston, but only about 29 in the 100 in Fall River.

Let us apply a similar comparison to two or three counties. The county of Barnstable has peculiar characteristics. Unlike most other counties in the State, it is neither largely devoted to manufacturing nor to agriculture. It has been almost unaffected by the rapid increase in population that is found in many parts of the State. The county contained, at the date of enumeration, 12,345 native born persons who had resided in Massachusetts 30 years or more, constituting 44.64 per cent of the total population of the county and 50.08 per cent of the native born population. Very large percentages of the total population and of the native born population comprised native born residents who had lived in the State at least 10 years. These numbered in the aggregate 20,002, or 72.33 per cent of the total population and 81.14 per cent of the native born. As to the foreign born, those of at least 30 years' residence in the United States numbered 757, but these, while 25.21 per cent of the foreign born population, constituted only 2.74 per cent of the total population. Foreign born persons who had resided in the Country 10 years or over numbered 2,006, or 7.25 per cent of the total population and 66.80 per cent of the foreign born.

Contrast these percentages with those found in Middlesex. This is one of the most populous counties, containing many thriving manufacturing centres, and also a large section of the suburban district of Boston, much of which has shown an enormous increase in population within recent years. The native born in this county who have had 30 years' residence in Massachusetts numbered 89,830, or 17.99 per cent of the total population and 26.22 per cent of the native born population. The foreign born, on the other hand, who had had 30 years' residence in the United States numbered 26,470, constituting 5.30 per cent of the total population and 16.90 per cent of the foreign born. If the foreign born who have had 10 years' residence or more in the United States be included, we find in the aggregate 88,831, constituting 17.79 per cent of the total population and 56.70 per cent of the foreign born. That is, in this county, about 18 persons in every 100 of the total population are native born of at least 30 years' residence in Massachusetts, and substantially the same number in every 100 are foreign born of at least 10 years' residence.

Franklin County may be selected as a typical agricultural section. Here there were found 11,643 native born residents who had resided in Massachusetts 30 years or more, being 29 per cent of the total population and 34.86 per cent of the native born population. The native born of at least 10 years' residence numbered 23,530, constituting 58.61 per cent of the total population and 70.45 per cent of the native born. The foreign born of at least 30 years' residence in the United States numbered 1,365, being only 3.40 per cent of the total population and 20.23 per cent of the foreign born population; while the foreign born who had had at least 10 years' residence in the United States numbered but 4,088, constituting 10.18 per cent of the total population and 60.59 per cent of the foreign born.

Native born persons of long residence in Massachusetts (at least 30 years) constitute therefore, of the total population, nearly 45 persons in every 100 in Barnstable County, only about 18 in every 100 in Middlesex, and 29 in every 100 in Franklin. Of native born persons of at least 10 years' residence in Massachusetts, there are in every 100 persons in the total population of Barnstable County, about 72, as against about 46 in Middlesex and 59 in Franklin. While the foreign born of Middlesex County of at least 10 years' residence in the United States constitute about 18 persons in every 100 of the total population, such persons comprise less than eight in every 100 in Barnstable County, and only about 10 in every 100 in Franklin County.

In conclusion, we may make a single application of the data, in connection with the classification by age periods. In Barnstable County, the males of voting age, i. e., 20

years of age and over, number 8,941. Of these, only 330 are of foreign birth of less than 10 years' residence in the United States, less than four in every 100 of the total (3.69 per cent), although approximately 26 in every 100 (25.54 per cent) of the foreign born males of voting age are of this class. Turning to Middlesex County, we find 151,458 males of voting age, and of these, 23,256, being of foreign birth, have been in the United States less than 10 years; that is, about 15 in every 100 (15.35 per cent) of all the males of voting age, and about 37 in every 100 (37.30 per cent) of the foreign born males of voting age.

In Franklin County, out of 12,885 males of voting age, 1,190 only are foreign born of less than 10 years' residence in the United States, constituting about nine in every 100 (9.24 per cent) of the total number; and about 38 in every 100 (37.71 per cent) of the entire number of foreign born males of voting age are of this class.

In Boston, there were enumerated 156,638 males 20 years of age and over, of whom 73,475 were of foreign birth. Those who were of foreign birth with less than 10 years' residence in the United States numbered 26,212. They therefore numbered about 17 in every 100 males of voting age (16.73 per cent), and nearly 36 in every 100 (35.67 per cent) of the foreign born males of voting age. In Fall River, the males 20 years of age and over numbered 23,827, comprising 5,772 of foreign birth who had lived in the United States less than 10 years, or about 24 in every 100 males of voting age (24.22 per cent), and about 36 in every 100 foreign born males of voting age (36.42 per cent).

When, therefore, an appeal is made to those who may possibly hold the elective franchise in Barnstable County, there are less than four in every 100 to whom such an appeal may be addressed who are of foreign birth of less than 10 years' residence in the United States; but in Middlesex County there are about 15 in every 100, nearly one in six, of this class, whose acquaintance, by direct contact, with our institutions, and with the civic policy of the United States does not antedate the beginning of the decade ending in 1895. In Boston, about 17 in every 100 are of this class, and in Fall River about 24 in every 100. In Franklin County, on the other hand, whose interests are rural instead of urban, agricultural rather than devoted to manufactures, there are only about nine in every 100.

From the figures contained in the table, any city or town may be subjected to a similar analysis, and not only do the statistics bear strongly on the question of citizenship, but likewise on various other problems of our social economy, which cannot be treated at length here.
